Unit prices reflect the value of the investments of a chosen investment option. A new buy and sell price is set each week for each investment option, reflecting the changing value of the underlying assets in the investment option(s), net of investment fees and taxes. We'll value the investment options at the close of business every Friday and release updated unit prices on this website the following Wednesday. When making an investment switch, your account balance will reflect the latest sell price of a unit at the time of processing.

The Financial Year to Date returns shown above may differ from your actual returns. To obtain your current account balance, you can log in to your account via MemberOnline and view a benefit quote. Net returns will appear in your annual statement.

Past performance is not a reliable indicator of future performance.
