## 6. MEMBER DECLARATION

I have obtained, read and understood the applicable current **Product Disclosure Statement (PDS)** documentation. I understand CareSuper can provide me with general information but cannot give me investment advice, and that the PDS is only a general guide and not a substitute for professional investment advice.

I understand that if I make an investment choice and switch all or part of my account to a different investment option(s), the benefits, features and services available through my CareSuper account do not change.

I understand that I can change (switch) my investments as frequently as daily. If I lodge my application to switch with CareSuper before 8pm (AET) each business day for written or verbal requests, or before midnight (AET) each business day for online requests, my new investment strategy will usually be processed on the following business day.

I understand CareSuper is not responsible for my choice of investment strategy, and that investment returns are based on actual earnings of the

investment option(s) I have chosen and that for some options returns can be positive or negative.

I understand that funds to cover investment choice switches are deducted pro-rata across my other investments (excluding the Direct Investment option) to the value of the switch.

I understand that this form replaces any investment choices I've previously provided.

For Super members: I am aware that CareSuper's legal obligations regarding how the MySuper (Balance) option is managed are different to those for the Fund's other investments. The superannuation laws specific to this option are intended to ensure the Trustee has a greater responsibility for members who do not make an investment choice.

For Pension/TTR members: I understand that if I choose my own strategy for the withdrawal of my pension payments, and there is insufficient money in a nominated option(s), then my payments will be withdrawn proportionally.

Please refer to the **Pension Guide PDS** for more information on your investment options.

**!** Take care that your investment choices add up to 100%.
